

**Beede Waste Oil Superfund Site
RI/FS Remedial Action Administrative Record File
as of February, 2003**

**Introduction and Instruction on Viewing
the Documents in this Record File**

The following index, and the Administrative Record documents that it links to, are provided here as a courtesy to the public in a convenience copy format. The official hard copy of the Administrative Record File can be viewed at the US EPA Region 1 Superfund Record Center.

The June, 2002 version of the Administrative Record File has been supplemented with ten new documents which are listed on the new last page of the index.

Formatting (margins, page numbering, etc.) may be different than the original hard copy and some appendices may have not been included in this on-line file. Where graphics or oversized materials have not been included, it has been noted in the text.

To view the documents as described in the following index, click on the desired entry and the linked Adobe Acrobat© PDF file will open. When viewing each document, look for the red boxed instructions on how to navigate through the document and get back to the Administrative Record Index.
